Swift and sure are boats as fleets.
Soldiers' powers all may teach.

Royal navy all are through.

China rough as British bows
Yes and nod are worlds to hold.
Hold by laws and good are signs.
British navy are good and fine.
Valiant crews are ill of church.
Conquered worlds are weave and Hertz.
Nuclear actors geared by steams.

Sea-cat launchers all are good.
Missiles launch are carrier roots.
Type destroyers all have axes.
Axes are names are ships with chairs.

Bristol built by swan that hunted.
Swan and Hunters all may fun..
Wolf on seas will launch their fires.
Called to fight are screws with pipes.

WESSEX flies and WESSEX fight.
Brilliant moved the paths are right.
Brilliant ships are ship that win.
Wasps and lynxes are crafts and pins.

Brilliant, Bristol, WESSEX so named.

.... A Jibe With Grand Doors-Cauchy3

The grand rocs are shadow flies.
A dinner is grand massive doors.
The massive doors set up lives.
To gibe are jeeps on paper dooms.

Smokes are sinking with stick to burn.
Metaphors are smiles but analogies are laws.
Each is beings and all are that could.
Weapons are phoenix but powers stand.

Play and point your lives on wars.
We flipped the ashes out of dust.
Obey cheerfully when all are asked.
Command wisely when lives are urged.

Whales are couch and tigers are paws.
Beds of roses are thrones with throngs.
Gross powers have profits margins.
Sales are bodies when clouds are formed.

Move on guarding feet and rush.

Workout swords are body buffs.

Swords to play are good with guts.

Bring your swords and life is forth.

Practices well are little loss.

..... Mad As Apes

Mad as apes...

Losses adjusted are laws and life.
Daisy chains are print in lines.
Token rings are paths that cross.
Secret talks are all to noses.

Tyrants kill and wills care ill.
Hush and hush are all are tills.
Whistles back are worms that turn.
Heats and boiled are seeds and nuts.

Boiler plates are guns with caps.
Caps at heads are mad as apes.
Mad as apes are tyrants' heads.
Run amok is bad and mad.

Gains divined are evil rife.
Losses adjusted are bad as life.
Laws and life are nothing fine.
Human forces should come in lines.

Press no gang are tyrant should.
Mad as apes are tyrant could.
Half and half are people have.
Mad as apes should go to grave.

All have come as something pass.
People bloods are donkey ass.
Worms will turn half and half.
China jesters grim are laugh.

Worms will turn and have.
Losses adjusted as bury graves.
Heroes' pupils cry for rights.
Noon of tyrants all are nights.

Backhand compiles are backs of doors.

Throats of WUJANTO make the sounds.
Sounds are strange and mad are rounds.
Tops are tops are havoc cries.

Laws are deep or throats are deep.
Bottom flags are arms with seeds.
Shorter arms are moons that down.
Feel as near to ratio lows.

Distant streets are worlds' eyes.

All over are people made-do.
Over all are gods to rewind.
Sum up totals is not relative.'

Gives and takes are boos and jeers.
Pictures are images to jell our laws.
Family trees are good fees.

.....1 China Intellectualism-Cauchy3

Intellectualisms are weapons' natures. There are seven or more inside information with China logos. There would be more but I do not know well. Some said that there are seven.

Spires or seven up are also juices. As I drink a lot of juices and eat some vegetables always because I am poor.

From news I notice Donald Jung favor meals like pig hands, Kabobs and pork. He got many good powers on assets.

But as vegetables are like herbs and..... My assets are your console prizes. How about withdraw of lots with no one party big along.

Where is my good asset? Are your baits switching on your bad matrix? Your hubs are dark with red alerts. You compare two groups with one spoon.

A plate is your only disk. All benefic languages are live dead knocks and poor situations to other worlds.

Your benefic language is the situation words to unit nations.

Your sciences copy the white fangs.

Jabs are not swipe. Swipe the chests and filch the world.

I got vanilla as assets but Donald Jung and China bosses got fitch as very deep powers.

Intellectualisms gaga! GI giant but no China wa-wa! Wa-Wa is white wash intellectualisms are seven or more.

Macro macadam is stone knocks. Mark down buses and boiled slots. Who send you a redeem tickets to Gods.

China man-ship is power passes. Licensed party is one big alone. Got your leaders they are waxing in dirty pool. All polls are from straw men.

Steel cuffs are used by vigorous tigers.

Snake venoms are from snake floods.

Fawn dogs are not free ion only.

Mercurial natures are not good mercurochrome. Political wounds need no more.

Go out for one along.

Go out for dirty pools.

Go out for no public crowns by all go over elections. Peoples got the boomers.

On the far ends of the China world pens there are quite a lot of poor workers and farmers.

Not to frame up them they eat some vegetables and some rice.

So who really got the vanilla? It must not the possessions of Cauchy3.

Gluttons for food show your teeth. Actuate to dickens show your powers.

If all are one union set our world universal may have one number one.

A one community is not one left wing. Our dimensions need 3 to 4 or much more.

Raw deals about poor fish men but are there big fishing pool as such to support cadres. Human plows are political tools.'

4 stars are belittled with one big king. Would it be some cadres very big fruit gardens but some acidic soil for the poor?

Would it be cadre garden of orchids but not world gardens?

A trawl to frame up is powers. Wooed jinx to our no good sundry.

Wooed jinx to shark bones with teeth.

A China well on cross jumping about marquis, dukes, barons and viscount.

God Marxism blesses mono China boss then no treats.

Life-poem-by Cauchy3.

Some Christians give one for ten.
Hundred thousands buck are for sakes.
With jails rural capes beg.
Jealous are on loves and greedy for sands.

Does he always dare to does his pleas?
He shares a corner in bad quarters.
No thunders before drums are heard.
.Limited loves are eternal baubles.

Remember the base s spends and the counts.
Who is game of fear white dirt?
Tommy is turn on a race of tourney.
But what is the principal behind men s digging.

If some one is too worthy to sins!
Says then Gods should return our taxes.
All loves are laws are some prizes.
Take a gun she will loss her actions.

Was mass better than density?
Do all worthy peoples over this mounts.
It is gun smoke but not chalk that erased.
Same level if waters are for hours.

Thick pizzas are ticket worth.
When things acquired then dreams with the worlds!
Who s body deserved to dragged to their tombs.

.....1 Annotated Feet-Cauchy3

We are creatures of supplement able. We relay to powers, comforts and happiness. That means our cores to survive. When we lack powers on lag tides we try to enlarge. Enlarge our vim and struggle.

A sort of loves to buy and to sell is called social climbers. We are some. We assume ourselves with good looks. Religious are mask off to fears and sexes and power extensions.

We all have fears that will make up laws or morals and these are why we obey to our rules. Our fears may due to pains or losses.

A flask of elixir is camouflage to long lives.

A piece of cosmic spell will ring up the universal like a home.

Donald Jung states with a geo-mantic artist. They both go on a magazine. He agrees to this artist because Donald Jungs father buried near radar station. And that means powers and good lucks to many their generations. Of course have no magic fans then Gods have no feels. Theses are rich men rabbit holes or tombs.

On the other side Donald is a catholic who state his own well faiths.

I do not care multi-mask off. But may be his points are to make peoples to love his mask off.

Religions and politics are both relay to powers and morals or both. Some time ago a T.V. screen of white albatrosses and there are the appearances of Donald Jung with his speech.

He addresses the possibilities that he will be the future mandated Hong Kong top boss again. In scripts these must be true. But may be there are some cadres are annotated feet.

For cauchy3 me mask off a lot also. Not to open all the truths behind my actuated minds and my bad things I have had trained my spirits to little Taoism. I had drawn spells on yellow papers. I earn no moneys but just probe the flaw magic worlds for funs.

My annotated feet are my own feet. However I always wish I am a god to all

atheisms because I am quite believe to atheisms. But may be there will be gods some time latter according to energies evolutions.

But who promise a hill rock to invite me the beautiful moon. It may be our enemies so I got to frustrate on some ways.

All are mask on and off for powers, fears, comforts and happiness. In ancient religion papal all over many parts of our worlds to believe to other religions dirty pools may cause heavy punishments even to death.

Some one being with tortures but confessed and regressed may ride a white horse and go out from church.

.....1-1-1 A Chart Of Life-Cauchy3

Declare and let out or control and humanity or centre are two only psyche effects. All causes are reactions to actions. However there are three genders in languages: Masculine, feminine and neuter.

Masculine are curfew laws. Feminine are all loves dramas. Neuters are equal amounts of benefits and tricks when mixed.

But changes come in small, medium, large and extra sizes. Magic spells are less costly than wands.

So we bet the totems with no buying. When false mixed with the genuine then fishes jump over dragon gates.

As horse fly to star with genuine but no with wheels then all are ones.

All wisdoms and all physiology –powers are led out by reactions to actions. It is hard to image how a new born baby creep without light, heat or touches. It may be only a heart break or crying in woes.

Of course we also have to think about the treats inside ones bodies. Ratter a rigid body or a creeper that bent down will calculated with heat, light, sound, touches and peoples.

As each one of us is greed for greedy lives. We are bully for bulls and bears games. We may beg for common justices of the peaces by setting up our laws. But when we lost a lot we know we had to stand on path but not knee on our own images.

All knowledge is forbidden when you are not with same or not get along with full agreements.

All wealth is weal when all country funds are only break in evens. All forecast on futures may be expired loves.

Up down volumes are not better than new high and low in some special occasions. All under performs are well for other up performs. One pattern of single crest may good for double or triple tops.

Zero is good arms. The upper trends are our good momentums and the down

trends are our low down.

Our lives are starts on some special zeroes. Write out your own new charts on one day.

Magic are woven and silky or magic are rigid and wands. Make up your soft brains under the hard copies of your lives. While phoenix dances then tigers fix up the vice-dragon when baby sit.

A flask of elixir is camouflage to long lives.

A piece of cosmic spell will ring up the universal like a home.

Donald Jung states with a geo-mantic artist. They both go on a magazine. He agrees to this artist because Donald Jungs father buried near radar station. And that means powers and good lucks to many their generations. Of course have no magic fans then Gods have no feels. Theses are rich men rabbit holes or tombs.

Religions and politics are both relay to powers and morals or both. Some time ago a T.V. screen of white albatrosses and there are the appearances of Donald Jung with his speech.

For cauchy3 me mask off a lot also. Not to open all the truths behind my actuated minds and my bad things I have had trained my spirits to little Taoism. I had drawn spells on yellow papers. I earn no moneys but just probe

My annotated feet are my own feet. However I always wish I am a god to all atheisms because I am quite believe to atheisms. But may be there will be gods some time latter according to energies evolutions.

But who promise a hill rock to invite me the beautiful moon. It may be our enemies so I got to frustrate on some ways.

1-1-1 A Mark Three-Cauchy3

1-1-1 mark three.

Laws are to compete to no laws givers. To the ends of complex fractions greedy minds are not match to figures of discrete fractions. Depend on whole fractions are our good ends.

Who make up our good fortunes? Small businesses have poor scores to win a very good standing. So large stocks and businesses become Beijing s intrigues! Small businesses and small whole sales can level out the discriminations between rich and poor lives.

Besides small businesses very huge enterprises or banking could be broken down in men given accidents.

In case of very great social financial problems, small businesses are relief to huge ones by ways of buffering. Of course many small businesses will rub out and hence give more chances to huge ones.

Very prominent numbers are very good negotiators with Bejin.

Bow tie is retail agent and seller with names in charts. Who polished the shoes of their bosses? Who polish the marching boots? Who give some couches with all flaws? Who clean out the windows to get the views of see-through-s.

Some numbers are marching on. They fight until liquid dry. Cuts are on fleshes as bones are dried. There are carnages when dictators give their calls. Some numbers are called numbers on checks.

Some take out their lunches. A God-machine is the prototype and second systems are mark two. God s mono-plays are gods dominating as red tyrants.

Leaderships are the prototypes but nationalisms are mark two. Who take the suggestions? Who will experience the semi-bivalent two systems which are mark three?

Which catalogues items are with binary search and hence go to tops? What are really fine when on tops? Are there very good suggestions for a true mark three.

Lattices of whites or lattices of inks are my views of very good polices.
A very good cube is very white phoenix bedding in complete white snows.
That is very good snow balls. It is to anneal and to access. It is to our annals.

But weak birds are tie on rains. How about our really white phoenix?
However cancel our stamps by inks will left bad impressions. Rats and snakes are

1-1-1 A Before-Poem-Cauchy3

Presume are powers and prevailing are senses.
Volumes to pressures are trends to success.
Show your big flushes to enlarge.
Kiss you fingers and raise your faces.
Settle the high with good scenes.
Contracts a line into one dot!
Creeks are drinks as stomachs are free.
Bricks and fangs are men and dogs.

Elbows are rooms but tensions are bows.
Thinking activities are saloons with solo.
Solicitors are scissors in pairs of souls.
Teas then a cup of teas to drools!
Indexes are leads of bureau tales.
Leaders are sacred cows tails.
Open interests are loans of worlds.
Protect the flames are fires for democracies.

Morals are songs and braveries are notes.
Closing prices are our lonely shoes.
A patch-man is to stir the home.
A one bar jumper of fathoms.

Falcons fall on phoenix s skies.
Tigers sit on lands keys.
Bush pilots are ware flights.
Fights for honeys are in locus lights.

Take the flushes as trades of worlds.
Odd longs are for odd shorts.
Toys with foes are to share our honors.
Bites of baits are as those how.

Swim wasp is hunting lips.
Tricks of sea monkeys are over laps.
Amounts are reflected as total likes.
A night is to fall when all in names.
Protect the rights and take the little.
Should a ruler rule the shore?

Majorities of peoples are pools to interest.
Sure there are macros in micros zooms.

America belles are good catches.
Damper all whistles of bad lucks.
Regulate the state and hammer the arms.
Nice actions are smirk looks.
Would China set up knolls?
Great walls are near temples.
Moons are places with loneliness.
Great soldiers are in good nests.

Cups on February are corpses that are bloodless.
Bulls have red clothes to butt.
Wen Jailer Boards the foods.
Be on throne as you smile to fools.

Lee sees singer on robes.
Cover the spades on red hands.
Pretend to as preparing the ounces.
China levers boost his ends.
Making offices those are to spread forces.
Apparent demands are peoples to bow.
Objects of effects are from causes.
Clauses are powers on grossed games.

1-1-1-1-1 Behind Our Backs-Cauchy3

Behind our back..

Fingers in pies are legal charms.

Hush to hush are money bucks.

All are bites but not all are barks.

Lent a hand is all in turn.

Rainbows colors go to eyes.

Rainbows whipped are body wild.

Apples discarded are legal charms.

Causal laws are not equal hams.

Chairs with arms are general man.

Legal charms are backward asses.

Woods and babe got my spoons.

Jungle toys are human tools.

Beaten paths as there are laws.

Net and draw as there are charms.

Sinful then go behind the bars.

All are jobbed behind our backs.

1-1-1-1-1-1-1-1 A Killing Egos-By Cauchy3

Killing egos...

Dominate over all controls and leave nothing unturned are bully truths.

Let the cat to go out from the bags the rats are sampling all chances to win.

Trojan horses are gifts from Greek as modern faire wares to wars.

Ghosts in machines even the gods in words to put our words as flying wheels.

Formal systems will formed as worlds have number unity all by single word that is 'killing'.

Flaccid dropping wrinkled laws are camp at words.

Truths have modes of speech as justices all are sharing powers.

Natural goodness set the intercepted surfaces of morals all with egos.

Killing egos need our nature forces.

Little dreams to cure the nature sins are human.

2 A Afflunces-Poem-Cauchy3

2 A affluences-poem

Cocks of the rocks are red feathers.

Red suits but squint venoms.

Hidden symbols are butches -gestures

Wrote pieces are foul works.

Records on earths are no true birds.

Squirt venoms are cobra heads.

His wings cover bloody rains.

The lakes of demons greet his years.

Treachery and sorcery are all fused.

Palms and thumbs are tricks and wands.

Nuts and bolts are evil nuts.

Degradations lives and cultures of nasty!

Beau ideas are beau geste

Burst words are thrust arms.

Spreading lobes are shaped red.

Worm powers are creeper laws.

Arts are curves but means are pointedly.

All soldiers are pointing and poking.

Moving coils are laws of motions.

Refer sins are lives as motors.

Re-fight models are new shields.

Assumptions on true are venoms facts.

Evils styles are hell s guides.

Defeated morals are operated factors.

Cutting metals are on butt s zones.

Capes of symbols are red colors.

Branding fires and evil rains!

Forces and powers are bent of brains.

Penney calculates the energies of atoms.

Lee man warm has copies.

Sweet moneys are flow of coins.

Extorted thoughts are feels on histories.

Coal mining, oil drilling and hays!

Life peers are actors of jokes.

Show me your show hands.

To plagues the snakes by weasels.

To cross the zones of dark lights!

Paws are tories and troy is Aeneas.

Cats- paws are letters of nights.

Leaders in pits have moveable fangs.

Honeys are surfaces of pitcher plants.

Vile laws are boiling tars.

Associated names are real trades.

Rummy by cards and laws by owners!

Asylums of wars are hero homes.

Spending times are exalted posts.

Hunt for worlds with examined powers.

Free their arms are for juices or bloods.

Bamboo apples and banana nuclear!

Nukes and guns are cast moods.

Operative moods are best of evils.

China tracts are systems pinks.

Prints in pinks but red as rouges!

Get the shows or take the pains.

Slave to justices and lives are rough.

2 Be God -Peom

2-be God-poem

Bring in the fears of what to exist

Trinity is years on walls to erase

Break down the walls to quit

On crepe papers charts are printed

Challenges and polls for no Gods

Universes are made from radiations and explosions

Bubbles are not taken care of bubbles

Bibles are waters to bring rubella

Immunities to coughs are polls and sciences

Beard to hymns when Gods are sick

A heavy mine of uranium is darkness

A condensed hole melt the explains

The powers can blow up all balloons

A proud review on Gods flaws

The absolute high and low in temperatures

The massive quick and thick ball

The laws of masses are corrected.

Energies meet with transducers but constants

When powers are absorbed states will altered

Atomic spectra is for heats and lights

Resonances of magnetic and electric waves

Are heats belong to thermal dynamic

Can we feel the tools and tabs?

Can we defined our times as they pass

The decrease in gravities will take times

Our spheres are expanding to bind

Jackal can leap but times have eyes

Times fixed to each no roles of bibles

Our finite spaces are stars interlacing

Comply to Gods will tamper the times

Complexes are weaves forms when ruled

But not Gods to view machines and causes

Tallies on woods are fingers of Gods

Magic of gods are curses to grow

Zero out Gods to arrange in rows

To jibe to Gods the minds of narrows

2-A Lemon Word-Poem-Cauchy3

2-a lemon word (poem)

Hospitals are bad hosts of hospitality.

Moneys spinners have markets with moneys.

Over our spheres over and done!

Constant dollars lost their constants.

Curfew plays play to eyes.

Crew necks are crews to export.

Truths expose our expose codes.

Drugs expose some exposed bodies.

Long for long arms protections!

Rash our stomachs to rash foods!

Loss to rascal loss leaders!

Harmful goods are good ham for traders.

Bar laws are bars when stir

Bear moneys then you are bears.

Mortal of morals are mortal things.

Hopes of lucks are hopped legs.

Bound legs are bound feet.

Feet of tyrants are ruler feet.

Absentees are absent without cares.

Poor label as poor marks.

Funs are fun to well off.

Fogs below wells have no well advises.

Well born are not well chosen.

Found the found lives of slaves

Water fronts are good to found.
Water wheels are angular wears.

Ways are not go through.

Ethic hazards get ices on snows.

Storms beside winds are rains as waters.
Next to bests are things.
Gagging laws are gage.

Set up laws are all 1 set.

Oils are steams and wars are clears.

Trigger happy or puppet happy!
Swim or sink when swing as beetles.
Beets or carrots and sticks or pills and wash us like the storms of rains on waters.

Me-my cauchy³ are doing inside the powers.

Tri-poses are tri-points.
Honor-laws-wars!
All are wheels or circles that pull up stormy rains on water fronts with guarding

Zeroes of orders take the Taylor series.
Zeroes are positive when we save.
All are saved on positive zeroes.

Differ into depth again take positive zeroes.
All win!

Door with lumber get on faces with parts on two.
Dark or bright and front and backs or tops and ends are all to come.
Power gears will rotate on ways definite.
Gods are might and we have shares.
Politico powers are might.
We choose our lots.
Log in powers ` points.
Out on logs is before power failed.
Fail to safes your milky ways on gods.

Tri-poses are tri-points.
Honor-laws-wars!
Matters-guns-maps!

Tolerate evils are abetted to sins.
Surrender and submit to follow dutifully are deeds.
Bow to powers takes the dickey songs.
Spanking lives obey the cunning laws.
Obey to bad orders to letters are deigning poor.

Out on hands to requiems with peoples and attack the crimes are morals.
Slums are hot for crimes and virus.
Only powers darken may be holes.

Darken holes are power free.
Powers claim the forms to power worth.
Claims on breadth take the control gods.
Push your legs with covers on china.
Figs to Gods are little chances.

Fighting chances are watery bloods.
Heavy hands are favor hands.
Claim on forms reclaim our citizen powers on fighting chances with lives.
Hope no worries decay our caves.

Trinities form our ways with three.
Tolerate evils as words on safety is one.

A 1-Poem On Power By Cauchy3

A 1-poem on power

Snakes swim on thrones near the pools

Cannons on ways of cans of fools

Generals are full genes in cases of wars

Mud covers much of cascaded walls

Shrink back stick to states in laws

Dry up jars of juices to adore

Mocks on modes of most bursts

Bombs on bones and fleshies are urns

Rub the rough minds in evil rounds

Lily lift its leafs to face the forces

Name the limbs near waves of angel s world

Words with unknowns are lions to worry

Facts are inflate when conflicts are water

Thinking is thick on airs like walkers

Sketches the games of getting and lost

Skips are skills for weaves to launch

A Abc Angles On Angels-Poem By Cauchy3

A abc angles on angels flaws (poem)

Mix with means and assets

Passive and active to abase the men

Heels and knees rent for renown

Breeds the breads to be demanded

Assert to assist by blocks of boards

Necks and necks to bad affairs

Moneys pay for debts in doubles

Laws are raw to protect with doubts

Shams are shames to have costs

Shams on sheets incubated courses

Lack of actions to freedoms and justices

Nouns are in ounces and loves are in pounds

Control the concepts of wielding guns

Control the concepts of smith for guns

Put the concepts of tyrants on hell

To hell real tyrants have helps

Hounds and eagles should focus on hunting

Expect the evils to be saints on junctions

Axes and awls are lying below

Awnings are answers with piss and pee

Peek on peaks of powers to be laws

Whales on whips are wheat to sharks

Weeps when sweep in clocks of Gods

Corrections of cotillions like hoofs

Zeroes in zeal for facts and morals

Morales are guns that march and move

Laws are lost and twist a lot

Terms in targets have not effects in long

Stay in dark or run from dart.

Stray to cycles of cruel ranges

Laws as can be rights are none

Table lands are tables with spoons

Monks have manners to list on tables

Jack apples are appetites on tabs

Whales on whips are wheat to sharks

Baby fishes are preys in bays

To be back in the passes to wash by bloods

In themes of theory our rights are loud

Next days are dated with truths or false

Flaws in angles of angels are small

Wings when wink to rains give no shelters

Bloods are buses to carry to hell

Wash their shames but leave our rights

A network of flatterers is in wires

A Abc Brazil Dance(Poem) By Cauchy3

A abc Brazil dance (poem)

Jack of crack in pots of crack

Sambas have bugs on figs that take

My heart has unseen bugs in acting

Ghosts haunt in cavern with heal

Empty stream in holes to steal

Barrow has one wheel for near

Wheel and deal are those on top

Tares are on suits but meadows are women

Dilate the prizes of prides on top

We are all cogs to tone

Harps be fine and fingers be good

Jacks play with their fingers on goods

The sun on Asia sky may be red

Give the logistics are logics to pets

Patterns of Gods are king s bodies.

Launch the papers on lunches to bowls

That faces of poets help to smiles

Admire the distances from had to a mile
Pleasures of leaders are earned by rows
Would there be sweats on brows when bow
Pietisms on parts are wholesome in vices.
Wise in acre but bully to eyes
Rusts are here yellows are pearls
Dittos on powers but flaw to react
Crooks roll your minds with hopes
Cogs in times lead us homes
Straps on times watch ones feet
Even are evil while equal are eerie
Only our planet with one sun
Falcons are slow down on bushes
Salty weathers salute to soldiers
Sambas of fortunes have just to sold
Passes on stages are passages to fires
Books on accounts are moneys to fine
Sambas of fortunes have just to sold
Sambas of fortunes have just to sold

Vectors pf suns are heats and flames

Bind to lines on sky when claimed

Plash and slash on lakes when free.

Stand off and away from tanks

Red suns have white heats

Friends for wines and for wench

Stand away from tanks ends

A Baby Blast(Poem) By Cauchy3

A baby blast (poem)

Glance and gimme powers to win!

Wars and walls are squads in inches.

Pinkos squads are running close.

Ways on stars have boards to loose

Up to hells are they squared ups.

Lit on pity faces with just!

Men in maces are programmed badly.

Policies are played and made

Make in marks to polish off.

Who is who then taken on?

Deal with icy laws that hypes

Pardon punks but pay the imputed.

Balls in games and norms to lock!

Lock the knots with many objects.

Frame the posts with bad options.

Positions post on tolls are toys.

Human sea as toys for sharks

Gods that rest souls go to act.

Goals are roads rebelling tyrants

Build the bills to lend our lands

Seal on seats with sites of god.

Will all wills of God are gold?

Crack the racks down bringing faith.

Monism mock on blessing laws.

Sort up shorts of lives to pops!

Sanity sink to bloods when toss.

Roots of roses are woken by noses.

Take the roots of justices loud.

Take the leaf for buds to free.

Sow to soil the loves of beings.

Stories are roots for buying foods

Tory has stories to kiss the foot

Babies kiss on babes with milks.

Breach to reach to talk to mill!

Hype up yeast that shield the vanes!

Back to battery adding the steams

Souls are songs to E-bombs on ether.

Words are wands that want the ethics.

Tasks are tastes to favor the good

Fevers for freezes pf years that go

A Baby-Brinkmanship(Poem)

A baby -brinkmanship

Open the opals are stones that grind

Truths on tops will laws are rings

Boxes on broads will loss on width

Heads are hints to options

Mother s laws are not massive norms

Master s tag the mass in courses

Child with chinks has words to put

Stand on smiles have songs of licks

Cog in corns will sad for truths

Fall between the stools not up

Codes in coins can choose two ways

Fates with fames where matrix lay

Fatal falls are guys to tanks

Twists are terms to march our fates

Draw up dances on polished stages

Polls are dots that sum up laws

Play the dumps not pass the drums

Press the papers jugged our mouths

Moths are move and sleep and fly

Fires from flies are glow with spots

Bright and brisk are kings of God

Cog on corns will sad for truths

Bring up spins our worlds have turns

Rinds are ranges not forces in bones

Hearts are hard to take in bonds

Holdings show up home to buy

Buy off benches of laws in busy

Posts on punches are laws for polls

Poems on points with codes in pomp

Cogs in corns and draws on globes

Brink with ranks when laws are loaded

Beg on buns are forms for some

Bundles put in banks of loves

Hatred grow as hays in wild

What on air are bad for wields

Wheels of wits are loss to wheels.

Guns and wheels are tanks in hell.

Fires are fingers tips of devils.

Thinking gets things supporting evils.

Burning jades are buried for just

Come to coins with faces that shine

Stems are straight when leafs cut off

All belles might not truly alluring

Bleach on stems waters has rules

Bang on hairs you change by she

Bang on doors your hands are free

Bang on cars your lives are shot

Bang on Apollo we lost our moons

Bang to God you got not milks

Band to father your mother has fringes

Bang to fans your foes are happy

Bang to hummer for justices as they happen

Bend on back your bodies are supported

Bend on swords your positions are up

Bend on laws your moneys are spend

Bend your bodies live will be easy

Bend on moneys your fishes are on hooks

Bend to ranks your smiles are homeless

Bend to law you got few breathes

Bend to natures you bath on earths

Beat a cat you eat your meals

Beat a woman with rains to dress

Beat a cope you need a mask

Beat a lion you tame the cage

Beat the world you win the lord

Beat on steps your tricks are programs

Beat a realm peoples are on boats

Beat your girls they live on oaks

Shape an art for good lubbers

Shape your mouths as closed tongues

Shape your lives with ideas and codes

Shape your figures on your shows

Shapes of cups are tasteful to shakes

Shapes of capes for eyes to stay

Shapes in appears are grapes on foot

Shapes in voices are laws to fool

I bang to front but not back

I bend to stems with aces

Laplace transforms give us changes

My altitudes are high with low downs

My orgies are borrow to go

Duly by rights are raw powers.

Glories are spent by splendors on talks.

A Dot Theory By Cauchy3

A dot theory by Cauchy3.

To wooed canto from God Marxism on maximum monstrosity is full play.

Who swear a book brought up struggles.

Who paint the bloods on white breads of philosophers?

Am I a philosopher?

No if I got the pro-nature.

But yes of I do the rest and jump high.

Some jump high to kick away the devil s throats on evil heads.

The right words are processes of right control.

Who are last and who obtain the right options.

What is moral? That is the right that acquired by the poor classes.

What is Tao?

That is the way that suffices to strike back the violence of evil matches.

Then hit and praise the sticks that slap with good prices.

Who barrows the cargoes to our fates given up dome points?

Who give you powers to successes given the most words?

Dead reckoning beat to death.

Maoism has low baud rates but sharp screwing.

Very good Macs are jackets to wrap the red rains.

To bemoan the mocked quiz for good people is one book.

Good people how to take the mocked quiz.

All play camps are with slave play fellows for camp flowers.

There are many wind flowers by blows or powers in remittances.

Powers annexed papers and colors controlled winds!

Good sciences devices substances and real politic devices oneself as well as others.

What is a tool?

It is a dice or our hand.

Do we need to low down to up load?

Regard no reputations with little honors.

Regard no results with bad reasons.

If so we fly over above line.

We can not get the rewards.

However all dots are so thin to define we could not get the rewards of a number.

Powers on men are dots of morals.

Powers on earths are triple tridents that tried on evil s right and tried on bad deep mock quiz and final is tried on dickens laws.

Evils trials to us are by Hadaka-Jime to good reactions, hold down the facing down on views and think out disciplines by décor truths.

A Twaddle Three-Cauchy3-Coming Human Faiths

Twaddle is for three. The turbo powers of negative matters are flipping from close regions but flogging to some farer distance.

The transit of rapid fires are first thin but then thick and heavy.

What kind of bombs and energies are made from theory of negative matters as we know.

Second theme is the controls of feeding charts that respond under gods.

It is the formidable forms for biologists.

My words as for examples are used forms of all flies to kill the fire ants.

Or we can be crocodiles to eat bad worms or bad bacterium after the uses of medicine to crocodiles.

Of course crocodile s bodies must adapt and fix on the new places on this food charts. Crocodiles must live on with good heavens.

After save sessions we have to get the powers for live transformations.

We have to use other medicines to map the crocodile on to other phrase of the world food chart. We then have to control our environment and plants growth.

The last topic for me to talk about is the biological warfare. It is the change forms of bacterium that are recuperated or developed from biochemistries or bio-processes.

It is then transplant to our poultry. The incubation period give short or calculated live phrases to the poultry.

The bacterium still can survive after heat. The gagged laws give you choking needs.

You demand on demonologies.

Laws and rules make to demote all as some sort of a kind.

To resort or to sort out by laws or by rules with powers are to follow all.

But the best or the worst to say is that all of us have feeling.

China Fuhrer needs a sinful sexy cat.

Peoples' hairs of balls are gagged to throats from mouths.

A spiritual skull is for your pillar box.

Specious china should free the Tibet when they have means to fishing island.
Those who think that china own the fishing islands all for the seeming same
rethink by reason just to free the Tibet owning lands. Lands are differ however
reasons both is same.
Or that one should pardon fishing islands.
Pardon fishing island so as good to do is peace between china states and Japan.
Good for spectacles all upstages are laws.
China bad invader laws are bad. Just so free the Tibet states.
Laws have spectrums also must be fair.
Rules have spectrums also they must echo with loves.
If the china treats the Tibetan just as right as china peoples then keep it with
coalition government.
Tibetan then gets the equal politic powers. Half to half is dues and deals.
Combine some beliefs and mixed our styles are good for counting Tibetan living
well with Chinese.
Count on men if you have needs for helps.

Three Clears

1 AAAA Three clear.

Why there are three clears or there are three sweeps.

Each person after birth there are lots of photo images of lives and picture pixels that shot up or draw up in our brains.

Our past experiences and learning are flash bulbs and markers to our brain photos and minds pictures.

Then each person put their efforts, vim and moneys to their actions and all are sending and giving with purposes.

But actually our worlds have many different cults and many different realms that control by many different leaders.

Many of them are with different fetish status.

They and we all crave for powers, many positions and loves.

They all expect different results for what you think and what you feel.

On de facto if you have special or some pure or advanced thoughts and if you may be being squeezed out oranges then you have no luck.

What are your apple ciders?

One of you may go to three clear ways or three clean sweeps.

They may be just, sounds and fairs. Or they may be amour-propre (self respects (de soi) and good to strive (forcer de faire qqch pour la valeur bonne)

In our worlds there are many philters and placebos. As o am some coward on some times and as to meet my live possible, I got some ill wills.

Some very success doctors as doctors or doctors as psychiatrists have exotic pills.

They seldom use them to their own men or own self. They say also with so many minds and wills' tactics and tricks and all to do is force into a draw or withdraws.....

They know they are Hong Kong communists and they think that controls and sovereigns by them are good on divine rules.

I use the word rule they like the word laws. Even for rules there are evil or good cursors.

Worlds may be heartless that regard every things as loves and hates tests. Every thing is natures for themselves and the devils take the most powers.

What is used for divined laws or gods? Gold laws and jade rules are what kinds of lives protocols.

They successes and they fail. With out powers balances there are no fail safes.

I cry for gods as our situations.

I think about the worlds and my cursors are on Taiwan time in some.

But there are no tab keys to real drawings.
A grand picture need to decors by pure thinking.
What good is China republic sovereign become thick.

- 1 Some laws are thin and quick.
- 2 Some wills are evil to sow.
- 3 Some stories on China histories have no now space bars.
- 4 Some tunnels are mad horses.
- 5 Some ages are capsules with ill powers.

Are there more than five evil tunnels?
Five or more evil tunnels against three clears.
Who got our worlds with three clears?

Under The Moon Politics-Cauchy3

Arch to beams will not change powers.
Tales to be told close our eyes.
Could be loves on tricks to Rome.
Would be rooms are that are rarely to build the sky.

Full of distances we love our ways.
Treats are spoons and tricks are baits.
Real to honors are to switch our facts.
Balances of powers have no good eggs.

Bald eagles have weights on hairs.
Ball bearing is time slots.
Plutocracies are heavy grounds on airs.
But air blow up the wings to loss!

Loss a lot is on ways to landing.
A box is a house for honor classes.
A sense of periods is when winds are heavy.
There are acidic brains when dealers appear.

All measures tie up with stones.
Rap words are not good music.
Bay leaf is not moon flowers.
How to throw a coin to moon when it is under?

So why reactionary for little Cauchy3 is.

All disposed as games to care about.

Drop a cog by logos come to people manage affairs.

Drop a cog they are not know it all.

Drop a cog as they will serve the peoples all in duties.

Under such illusions why Cauchy3 is reactionary?

Under mentions go to theorems of games is such.

Take the current politic as begged to lucks.

Take powers escaped our dead locks.

Rather tender come to dip in set.

Rather fierce are Fuhrers.

Rather poor are peoples.

Gods will comfort leaders many.

Gods will get a larger bit from common peoples.

Common peoples go redeemed a lot.

Gods will bluff it out.

That is justices.

World

World and business and peace...
Actions bring some change in mind or in deeds.

Actions reacted are also changed.

What are causes are events of fates.

Some effects can do and fixed.

Axioms of truths derive to theorem of life.

All human need morals and laws abiding.

Peoples should take their turns to govern or
mastery some ways as they could be.

Are there are also common polls.

Limit your styles of business but no a real one to limit your wealth beside you are
not.

Styles of business are bad if they are monopoly.

Each states or countries citizens have
right to lives and not fighting.

But it only can be if only if all countries obey the laws of peace.

So the name republican would be so right.

Only minds consistency is then united our worlds.

Forces that are right and fair is good to count our peace.

But China bossy bosses are other.

Or more critical world army forces should
get equilibrium.

Ambitions and aggressions must be hold down.

Monopoly business are inner damned.

Greedy china tyrants upset the whole worlds.

Equilibrium can involve army forces, sciences knowledge, matters resources and country wealth..

However beside reasonable and righteous forces the world have aggressive forces that line up with cabal as mainly Chna and Russia.

Then the danger of wars may break down.
