Adam's Peak

Sun shadow is eerier
Many years ago it gifted
Misty spread over the peak as a heaven land floating among the clouds
Thus, Lord Buddha, s Christ, and Adams were printed foot there

Ancestors were preserved for you and also me
To travel to the peak with the thousand of impression
Also, pilgrims who are hiking the mountain
Blessing for the god rather ensure their diversity

The attraction was by man-made that supplied shelter as well as food and
beverage
Someone who like the homage to family member's gang and lovers
It supported and giving more chances by it power
Believe the noble eyes are watching you always

The Adams peak which garden for the noble one
Someone climb who can see it is beautiful than other destination
In the time of every year January to May
Who will be the next noblemen who also will come to their peak

Adore (Alphabetical Poem)

Adore was created by noble one
But also, not for one it everybody
Charismatic among the nation
Definition of his adore, that was difficult

Especial creation, that offered by Godfather
Father's name is not continuing by son
God is kindly, but he believes sin is around her
Her could not delegation with noble one

Ideal phrase and wordy are never ever deleting
Judgment is accurate, it proves by people
Keeping faith the creation of the god
Love to listen, again and again

Mentioned above verses
No one thinking
Oh god, where are from beginning the adore
Puzzle in mind the god son also, grows by her adore and breast feeding

Adrift Woman

Existing mountain filled with tea plantation
Pluck tea bud by women workers
She was thin and she's skin turned to black from sun rays
Nevertheless, she dedicated service daily

One day she came with her little baby
Whilst on crying her baby, she gave breast to feed for baby
Stopped cry by baby she gave a kiss to baby and kept near to her
up to sun is go down She worked hard

Another day when the time she worked on the tea yard
Came her husband for asking money
He drunk local arrack every day and night
But she gave all money to father

She was cried but somebody did not see
Although she's teardrops it dried by sun rays at the noon
Also she's was in pain, that was not clear
However, her whole life spent for family

After Christmas

Great day remarkable memories never ever deleted
The comet has been replaced
The popularity of the Christmas date couldn't be seen today
there garden flowers moved as a lazy girl

Give thanks to the sea which was not waving rough waved
Give thanks to the wind blow that was mellow on that day
Give thanks to the sunbeam that was not much hot on that day
Even though themoan of the women it wasturning for praying

Beautiful Christmas cards used to the decorated wall by children
Loved one has removed hanging gift of the Christmas tree
Salesmen were happy thus good profit seasonal
Although sorrowful people were they seen his mercy

Looking attraction of thephotos by the family member that was for reminding
holy day
White snows they were turning to colorless water
White snowy leaves were turning to the green color
But will be turnedmemories sorrowfully without scripture

After Raining

Session of rain, it is the time full fill the lake. River as well as pounds
Over, over rain, therefore, sun chariot has spread
However, plants grow with the new bud
Flood was destroying some dwells reconstructing with the sun

Reaching winter all over the world
Lured snows will be delighted as the white cloud
Starting farmer to do the harvesting their paddy field
Raining has fulfilled Lake River as well as pounds

Flora has grown with mildly greenish color
The bird was sung a new song with new nature
The umbrellas, raincoat, has hanged corner of the room
Children were gathered in the ground to play a game

Teachers became happy to fulfill the classroom
The night became warmth therefore, couples were bedding and enjoying
The peacock was fluttered with the sunrays its feather become dry
Labors, slum people were happy according to rainwater is not coming themselves

Always Forgiving For Sinners

Bastard has caught up thy hand
However, he had not any evidence introducing that who was thee
Thee ran like a flash between several people
The bastard was shouted, a thief
Bloody passengers have tackled thee as a thief
They hit from the fist until bleeding and tore all clothes
Although they were unfair cause have not any reason to prove as a thief
Foolish people went away with hand thousand of sins

The elephant rock decorated with the mass statue with Lord Buddha
That noble one looked behavior of sinners
Thee praying that is forgiving for this sinners
Therefore, the lord has salivated thee from the beast like sinners

The street colored by the blood of thee
Thy blood smell inspire that who was the Christ upon the cross
Therefore, his kindly eyes were looked at thee and he tall god came because of
sad
Advising that, the devil is killing people according to Christ was reborn

Among Beautiful Environment

Suffered everything same coming with soul it's a heights of truth
Among beautiful environment of doctrine foot stepping the dark path
Listening dropping water and an d growing bud its make life of faith
Looking pouring tears mourn with pain or pleasure couldn't show really truth

The believe of keeping deep of your heart it will be showing power of creating
Every dropping dew and flowing rivers groan when was him foot stepping
Which knowing and feel of smell and heart rhythm whence it will be asking
The summer and winter with autumn will be watching blossoms blooming

The power of our selves never born with pour it's all really for life
But the many of really thing destroyed by power of greedy people
They will arrested every good person and will kill without change
Thieving innocent property and banish without think of life

Whence the deposited thought could see front of my eye s
The reading or watching with creative divine except never help to lives

At The Past Time

Wind is blowing across the lush paddy field
Village, temple, and lakes they were the main symbols of the prosperity
Kingdoms had been established consequently, among all regions

Although brave kings and troops were protected themselves motherland
The son of Ashoka named theraMihindu declared Buddhism via all provinces
The people turned for the cultivation in order to make sovereign

The historian man-made was an amazing environment to the Island of Sri Lanka

Attractive Bay And Firing Range

Greenforest on the hill, which is silent with the morning sun
Gesture that was showed up like pleasure calm that made up gestation
Gathering that deer groupthey were playing squirreling with simian
Gifting this nature to either fauna or human

The birds it hidden among the leaves and it was shoutedcontinue
The mina andpigeon were flown upon the seashore
The deer had not moved to their beach but it watches that scene on some time
The lagoon seawater is not moving for their seashore

Blowing that wind across the bay and over the trees
Boat, Ship, and jot were floating from the power of wind on several hours
Blank atmosphere has decorated leaf shadows
Background will be attractive for the portrait by painters

Lovers of motherland they named soldiers who fire the gun on their range
Lieutenant was bided to them that proper stance and accurate aim that might be
Lagoon had not an idea that sounded bang, bang on that time
Loathing that sounded of bang they have inserted earplugs for themselves ears

Battle

The soldier cried after the battle
He stands in front of their military cemetery
Thinking that was faded youth
Thinking that was left his loved one

Struggling that was either beginning or finishing war
But he felt it was same as a begin
The grabbed weapon has handed over to their armory
He became a lonely man rather than past

Thinking that who owned this land
The triumph is chaotic that whisper by wind
But also, the consoles why all battle has finished up
He lay down the ground

The chaotic life is being finished cannot be rebuilt up
All battle is being finished with wealth was finished
The cloud has created a white bed for lay down
His soul flew through the sky via heaven

The train express going upon rail near of sea coast with emission black smoked
Enchant passenger looked outside about large sea and blowing wind

Ornamental fish came to out side from water and take them food by floating

Although, how thee carrying was connected with her

Thee was embraced there female body for console arouses a feeling

Begining Of The World

Beginning world with people starting doing sin the phrase prove by him
blood

Although no one facing take him for doing hospitalization try to going road of
blind

The names of noble one protecting status truth ounce upon time try to fight till
end

Although it's may be brutal experience in the formality of blind

Getting some meaning of reality so hard for people step by step increasing
population

They never listen to sound of dropping water never listen of blowing wind never
sing melody of hymn

Among floating people romantic water laughing somebody with pleasure crying
innocent somebody drowning in water all though the wind is murmur hymn
Once upon time hide with reality loving ancestors not to be strange thought from
heart born

Without knowing distribute power ignorant someone hitting and killing
people

Demolish somebody property gathering with blind one not strange crucifix

Before return to salivation prince must be floating everybody till rough sea

Sun Turn to black color every sea turn black color bowl of seven deposited
protect from fire

The sole will purify from sin every planet went too far away separate from solar

Although they never see again without warmth tough finding road before coming

Bumblebees Will Be Singing

When the time of walking the street I covered it for not wet
Atmosphere air has purified by it
The squirrel has made cage in it
A tree was added attraction to the world

Early in the morning, it lights for the earth
It starts moving in the east sky
Every cities, villages, and woods had been lighted
It offered benefit raysto the world every day

The rainforest, which has controlled by world
Most of the eco lovers captured pictures. which was a deer came at the brooks
The lions, tigers, hedgehogs, are living their
Revivify bumblebees that are sucking from the pollen that was owned by
blooming blossom

Either you or I have to love the nature
Thus, next generation will grow rather than thoroughly at universal
Tree will be protected you, and bumblebees will be singing a song
Therefore, the natural attraction will be increasing as well

Can Not Be Changedate Of Dead

We met at the childhood
the memories those are special never ever forgotten
We celebrated often time together many days
Ranging candle is for our memories
Changing lifestyle and dwell by the time
Nonetheless, we matured in varied ways
We met rarely but we talked to lot of things
But we did not think the life has shorter
With the advancement of age, we entered other life
The busy life has limited fun
But also, you had not informed that is calling from the heaven
You were special memories never ever has forgotten
The death and destiny those cannot be changed
How he refused that invited from heaven
We are pleasuring thus heaven is arranging for you

Child And Rainy Day

Rainy day, therefore, children were not attended to the school
One child was slept up to nine o'clock
Kissing his face by parents they were going for working

I phoned to her definitely, not special matter
Although, the matter was the same as I tried to tell at the previous day
It was an eternal matter as deep feeling in the heart but cannot be spelled properly
She's voice has been dull as result of, I became the regret

I tried to spend the day or two days that was without phoning
Although, automatically my finger has touch her name
Sometimes, living with her until the end of life as well as next soul
But also, I didn't recognize that is her heart

Thinking, that was I m not important to her
I felt desolate, therefore, I looked far away across the sea
Alas, she came as a goddess and inquired me why did not look at me
I stated all things they are important to me but she did no get it

I stated all work done by me without her
Although, all special conversation after one matter is deposited in my heart as told I previously
Therefore, I became wordless men
She's behavior is cannot be imagined without night dream

Red color of the rose petals have been increased

Flashing sun to the earth even though it has not very hot

Developing An Island

The flowing water providing power supply via all over island last day without rain many people desire current failure presently many country using nucleic power for supply current specially we can call to them world power of command country India china and Japan using this nucleic sources for rescue from darkness although may be the nucleic power not suitable an wise proper system is water power for India and china will agree to giving this power for using our nation. Electric train has very high speed we can reach every place a one moment and we could deposit it like gold not to be facing power failure. This developing village not correctly power supply yet the first fact of not to satisfied production by turbine by water power. Northern area having large terrorism last three five years ago many things destroys by enemy presently they Live without saw power in this area school children haven't power supply for studying computer very difficulty in study at the night

Although some one dance beneath color light. Some island for provide solar and wind power for the ministry of power and energy although this area not any project or plan earn to power and energy. Otherwise not functioning works shops and factory in case of loose of professional for the people. Among this situation why not agree with kudankulam nuclear plant yet the people movements again st nuclear Lankan nuclear power plant proposed 2020 year..

Actually developing country main problem of lack of power supply due to loose of ne destroying environment without any idea of future increasing population developed road facilities. at that situation we can't hope full reach range of rain which of effect for reducing supplying power energy. Sri lanka a was a cultivated country since history comparison with universal movement some ells not to be match for present situation be side young people try to fight with new developing world they need to delegated with world via. Without power energy they couldn't reach to themselves dreamland they become to weakness among darkness' at the future.

Absolutely this whether suitable for large power plant area there is no evidence of bad weather since last few year without doubt for storm or rough sea because front side adorn by marvelous forest protect by the government although commence large project in this place they will give the permission for the benefit for people alive. The one problem we need to one power plant for required approximately 400000 cubic yard of concrete.66000 tons of steel 44 miles of piping 300 miles of electric wiring enough to stretch

Construction of a new nuclear power plant creates up to 3500 jobs at peak construction each year the average nuclear plants generates of approximately dollar 470 million in sales of goods and service the average nuclear Plant generates federal tax payments of approximately dollar 67 million annually.

The country man suffered with loosing need to wealth for cure themselves family. Without duties for people they tie with many of bother and they time spending for unsuitable something using nuclear power plant we can construct many of factory via past time came natural calamities and terrorism effect is very harm full decades not done any development project via country no active any new idea via country. Many young soldiers killed by enemy at the past time its may effect for loosing development in this country. Ancient time many of aliens came and capture this country otherwise every our ancestor fighting with swords the fact of the nation has not new idea of the terrorism. The condition of war somebody offered them life also beside it general condition of their people.

All of thing over since presently young solders rescue mildly life threaten too missing something themselves life's now they could share with developing project. The sources of our step by step loosing people are useful many thing ut sources we cannot to earn money for future plan. Otherwise important cultivate plant need to increasing plant yard and man power for increasing working strength.

But I didn't see anything as well as I felt empty spaces on there

The Seahawk and pigeons were flying at the sky that was close to the sea

But I felt the sky was empty as a large white cloud

The boat on the seashore and I get into the boat and sit there a few seconds

again, I looked up the sea after that, walking was few metros

Viewing that was an island

Alas, I felt the sea has not single there was established an island

Hurting that was my heart but which is not chest pain

Free From Oath

Surrounding, which was not clear reminded ever
Nevertheless, I sighted her somewhere at one door
It was not an idea but something that is becoming together
It had reminded again but I don't think she had it ever

Neither she nor I were not in real situation
It had felt over the day and night but I don't think she had it, as my known
It was not a turning point or flees from the thought of her creation
It was dream or a violation but still, I am thinking in my own

Moving in between public in the crowded city
she walked every street but it was not same as shown previously
But I know she has never ever walked down the street lonely
Hating that is for sweated clothes and mess up life accordingly

But I pleased I free from the oath of love
But every second I felt her hot lips and soft touching of her fingers
But I don't think she had it with her prudent thoughts
But I spell her name as well as writing her name in the spaces

Hearing sounds that are born in from winds
Thinking, but struggling thought though, mild darkness spread front of the road
Invasion, the hesitation of scared like darkness thus holly shadow stepped to the base.

Reminding something that unfair of society
After that thought shame of lifespan that with some sin work
Desires might not be stopped
However, the love is grown up by looking at environments.

Thinking, who slay fun life of my own?
Though stepping up to climax it has number of rock caves
Heard sounds, which helped to flee sorrow and lust, but not born in pleasure or sin
The temporal life is turning to eternal from each footstep.

Rock cave build for meditation for fleeing the deceit of life
There was not darkness I thought as previously

Piercing blow winds that is helping to inspiration and aspiration

His life will make a define

Life of outrageous was spent as a man of the prison

Several days look over the window without patient to see her luster eyes again
Somebody thought love is not fair with her furthermore
Although she's red color lips has been not covered by anything

She was a poem, sweet melody, but also a great puzzle some time
She said thou love is fair but not state by mouth to mouth but stated by body
language
Thee thought has become softness as the newborn baby
The newborn baby slept upon her lap when the time of hot

With the advancement of the age, thought will growed as a branch of a tree

The body with chills and rigor although the night was warmth
Sweating was all over the body but the night was very cold
Everything has become against thee was as seeing all of that
Younger age was foot stepping to the elder without toughing year

The End War And Soldiers Life

Green color valley turned to red color
Horses were neighed that was echoing among the valley
Brave people died from the enemy shots at the battle
If the soldiers have not dead by the shot they haven't any better life on the
outside

Thought of scared they have not felt whilst on fighting
They have not any hopes other than freedom of the country
They fought all over the day and night
The blowing wind whispered heroes never died from the world

The sword did not tremble in front of the enemy
Killing that was an obscene enemy
The brave men sword glimmer for the cutting throat
But he did not sin man in the battle

He hasn't any funeral pyre at there wild other than wildflowers
But the blowing wind across the country was singing sorrow song as a widow
The mother as motherland warmth his dead body
The man who soul will be traveling to heaven by invitation of many goddesses

The Happiness

The happiness, which is making either smile or tears
Rarely someone has tears with the happiness
Somebody embrace each other with the happiness
However, somebody has died with blood pressure

The Lord Buddha has explained what the happiness was
It described free from sin after that to be done the right thing
They believed happiness is making some sorrow to the people
However, some gang believed that happiness is the triumph of game

Varied nations happiness has celebrated happiness with the festival
Such as New Year happiness wedding happiness as well as birthday party
happiness
But someone faith that happiness can be felt in the solitary era
Although, it cannot be shared with each other

Every happiness has to be celebrated with the family
But it explained by the doctrine that happiness is dared for gloom
The friend of yours, lottery winning, sweet memories made happiness
But also, nobody satisfies with the happiness on themselves life

Although somebody has refused this lives
Yet they feel nobody with them lives and never ever

Every secondadore were stepping far away from the closed one
Because of the many trouble had struggled in the past
Thought were aroused but sometimes why we created as a man without as
previously mentioned crows
Finally, everybody urinated to gate hole but the gate is not open that brutish

Although, the river was slowly flown until meeting the ocean
But the water level has increased by rain

Beside the river constructed situated slums as the little cottage
The slum walls covered by wooden board and roof covered by the tin sheet

Voyaged Around The Sea Port

The wind was blowing through mountain across the ears
It made so, so sound and it has blocked which is hearing all of the ears
Sea tide made the sound after hitting isthe pier wall
The peers of fish gathered beneath the water

The passengers sat on the bench
They were the rant and looking for a boat for the trip
With the sun, risen starting is sparkling seawater
The boat wassail to the pier it made happiness to the passengers

The engine of the boat started it created white foam upon the sea
Suddenly one of seawater has spread inside the boat and it was wetted cloth of
ladies also
The sea thou had not cared for the ladies they softened as a petal of the flower
But they like to thy cause thou is mass as well as brighten as a sapphire

The sea, which owned several islands with their coastal
Moreover, it owned several ships, large submarine, and water jet
Although the sea is, deem to the ship as a wives
It can be cognized as a seaport but they voyaged by a boat

War Poem

The line of fence it shows out order
Starting shouting for violating there
One person who tells the line here
But opposite person who was not agree

Someone threw a stone to opposite side
Once they threw more stone for the opposite side
Aggressive person who carried lot of weapons and guns as soon as possible
He fires the gun oh god someone had injured but not die

One side organized troops for fighting its decorated fine armory with more gun
and weapon
Bidding rules against for opposite side according to, fence line did that partition
One government pick up a missile to kill opposite men
The social media declared and reported there around death, casualties, and
destroy land man own.

The country reputation has damaged thus increasing is more death and
casualties
Government leaders have planned to gather for discussion previous Factors
The meetings it has not end up with successful results
As result of, most hero's named carve upon the rocks but also with some persons

Tears wiped from lot of eyes, pain of hearts Seattle down by his ward
Although someone is hating for his paragraphed

The tale of the king, girls love, behavior wrote by him selves pen
The amazing true pretty story created by his word
Little child world, babies cries, describe from his phrases
However, his pen ink never wrote unfair story to the publicity

Singers sang his word front of the assemblies

Given wisdom for all nation without any of partition
Telling truth and crisis of political by article for all the nations
